Searching with UpToDate

1. Enter a word or phrase in the New Search box. The more specific your search, the more likely it will return the desired results. If you want to search just Graphics, select this option in the drop down.

2. Prioritize the order in which topics appear on the Search Results page or filter your search over Graphics only. View the titles in the default order (All Topics) or choose to prioritize the relevant list of topics by Adult, Pediatric or Patient. Select Graphics to view all relevant graphics in thumbnail format.

3. Access topics from the Search Results page. Click on a topic title to display the topic; position the mouse pointer over the topic title to view the topic outline. And click on a heading within the outline to link to a specific section.

4. Use topic outlines. Click on a heading in the outline to access the corresponding section of the topic. The topic outline also includes links to related topics and associated graphics. View All graphics associated with a topic in a thumbnail format.

5. Find text within topics. Click Find and enter the text for which you want to search. Select Find synonyms if you want to find both exact matches and synonyms, or select Find exact match if you want to find only exact matches. Click Find to highlight all occurrences of the text. To clear highlighted text, click Clear.

Access the drug interactions database* (online only). Click on the highlighted arrow on the search screen to review drug-to-drug and drug-to-herb interactions with the Lexi-Interact™ drug interactions program.
