Answer clinical questions with UpToDate

1. Enter a word or phrase in the New Search box. The more specific your search, the more likely it will return the desired results.

2. Filter your search results.

3. Hover over a topic to see the full topic outline. Click on a link to go to a specific section.

Prioritize the order in which topics appear on the search results page or filter your search over Graphics only.

Research the Topic.
Over 10,500 evidence-based medical topics provide the information you need for optimal patient care.

- Enter a word or phrase in the New Search box.
- The more specific your search, the more likely it will return the desired results.

For demos, visit www.uptodate.com/demo.

Modify your user name and password or update your account information.

- View Practice Changing Updates (PCUs).
- Learn “What’s New” by specialty.

Review Search Results.
Enhanced search results display the topics, sections and graphics that are most likely to answer your clinical question.

- Access drug interactions program, in partnership with Lexi-comp®.
- Calculate many different medical measures.

Personalize your view by collapsing or expanding results or hiding the topic outline.

- Review list of topics within each specialty.
- Access patient education to share with your patients.

Search UpToDate topics in Multiple Languages.

- Accrue free CME/CE/CPD credits.
- Email topics to your colleagues or patients.
- Print text, references, graphics or the entire topic.
- Access patient education to share with your patients.

- Use the Find tool to search for a word or synonym within a topic.
- Click to view a Medline abstract with full text when available.

Provide valuable feedback by submitting questions and comments to our editors.

- Link to information about authors and editors.
- View the date that the topic was last modified, based on continuous review of the latest research.

Modify your user name and password or update your account information.

- Access related topics to find additional information.

- Graded evidence and recommendations.

- Access drug interactions program, in partnership with Lexicomp®.

Note: Visual depicts a registered user accessing UpToDate and accruing CE credit.

UpToDate is accredited and recognized by colleges, associations, and authorities from around the world, and is a globally accepted information resource and learning tool.

To see if you can use UpToDate to fulfill CME requirements in your country, or specialty, please visit www.uptodate.com/cme for the most current list of CME requirements.

The ability to earn CME credit is not available in all countries, and it is up to each user to determine whether his or her use of UpToDate qualifies for CME in any particular country/specialty.

For demos, visit www.uptodate.com/demo.
