# Answer Clinical Questions with UpToDate®

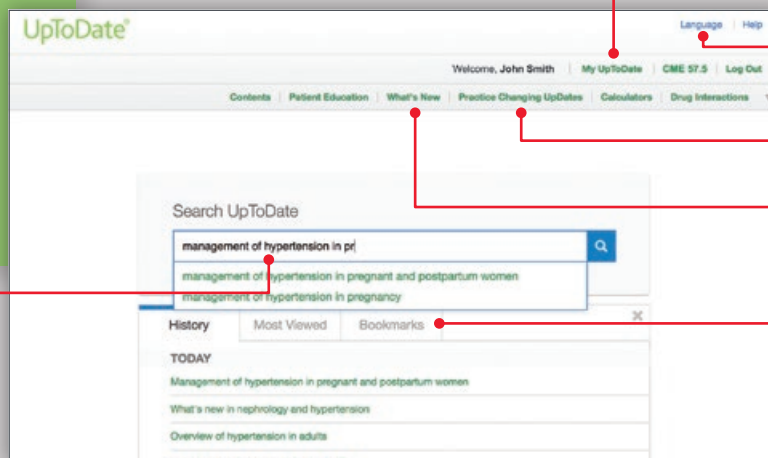

# 1

## Enter a Keyword or Phrase

Be specific for best results.

Search with auto-complete.

Modify your user name and password or update your account information.

Search UpToDate topics in multiple languages.

View Practice Changing UpDates (PCUs).

Learn "What's New" by specialty.

Revisit information you find most valuable.

Prioritize the order in which topics appear on the search results page or filter your search over Graphics only.

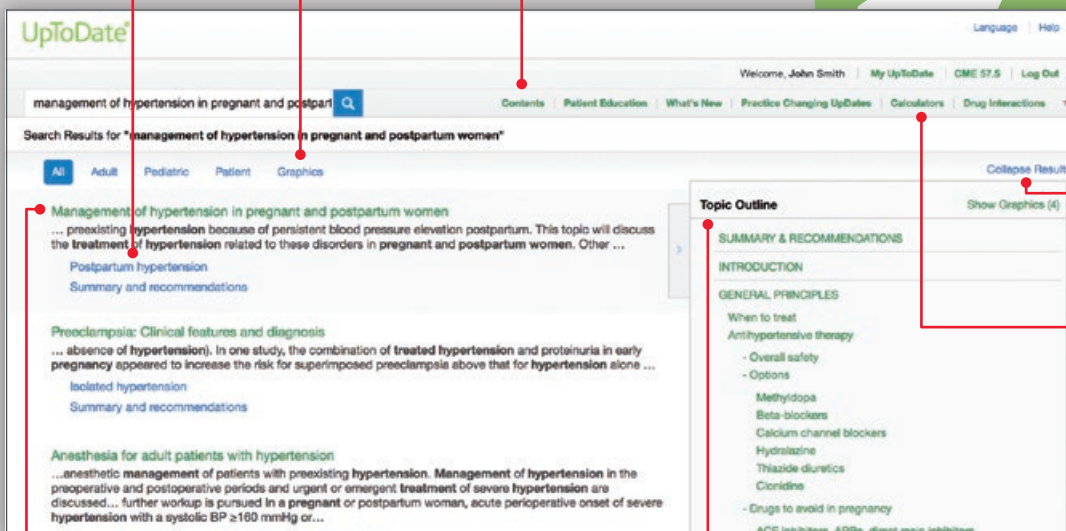

Use subsections for easy navigation.

Review list of topics within each specialty.

# 2

## Review Search Results

Results display the topics, sections and graphics that are most likely to answer your clinical question.

Access Lexicomp® drug interactions content.

Personalize your view by collapsing or expanding results or hiding the topic outline.

Calculate many different medical measures.

Hover over a topic to see the full topic outline. Click on a link to go to a specific section.

# 3

## Research the Topic

Over 11,000 evidence-based medical topics provide the information you need for optimal patient care.

The screenshot shows the UpToDate interface for the topic 'Management of hypertension in pregnant and postpartum women'. The sidebar on the left contains a 'Topic Outline' with sections like 'SUMMARY & RECOMMENDATIONS', 'WHAT'S NEW', 'INTRODUCTION', 'GENERAL PRINCIPLES', and 'TREATMENT OF HYPERTENSION IN PREECLAMPSIA'. The main content area features 'What's New' updates, including 'Long-term risk of hypertension in women with pregnancy-associated hypertension (August 2017)' and 'In utero exposure to beta-blockers and congenital heart disease (June 2017)'. A 'Topic Feedback' button is visible on the right side of the page.

View a detailed outline within each topic.

Click to go directly to summary and treatment recommendations.

Click on a heading to go directly to the information you need.

View all graphics associated with a topic in a thumbnail format.

Link to information about authors and editors.

Access patient education resources to share with your patients.

Receive notification(s) of clinically significant change to topic.

Accrue free CME/CE/CPD credits.

Share topics with your colleagues or patients.

Print text, references, graphics or the entire topic.

Bookmark content for quicker access.

Search for a word or synonym within a topic.

View the date that the topic was last modified, based on continuous review of the latest research.

Provide valuable feedback by submitting questions and comments to our editors.

Click to view a Medline abstract with full text when available.

Access related topics to find additional information.

### Note: Visual depicts a registered user accessing UpToDate and accruing CME credit

UpToDate is accredited and recognized by colleges, associations, and authorities from around the world, and is a globally accepted information resource and learning tool. To see if you can use UpToDate to fulfill CME requirements in your country, or specialty, please visit [www.uptodate.com/cme](http://www.uptodate.com/cme) for the most current list of CME requirements. It is up to each user to determine whether his or her use of UpToDate qualifies for CME in any particular country/specialty.
